Medi-Cal

Important Provider Notice: #0116

Subj: Long Term Care (LTC) Provider Rate Changes effective 8/1/09

PHC has been notified of the State of California Medi-Cal LTC provider rate changes effective 8/1/09. The changes for each LTC facility have been updated in the PHC system as of 6/18/10. LTC claims submitted to PHC on or after 6/18/10 will be reimbursed at your adjusted 8/1/09 rate.

PLEASE DO NOT SUBMIT CIFS FOR THE 8/1/09 RATE ADJUSTMENT TO PHC. This year PHC will not make the rate adjustments through the CIF process. For those LTC facilities affected by the rate change, PHC will provide you with a report of the claims impacted by the rate adjustment.

Underpayments: For those facilities where underpayments were made, there will be a place on your report for you to make your changes to the billed amount for each claim. We will ask that you sign and date the report. The report is to be returned to PHC for adjustment. The adjustments will be made on a first in/first out basis.

Overpayments: For those facilities where overpayments were made, the amount owed will appear on the report. The facility may write a check for the amount owed to PHC and return the check along with the report to PHC or you may arrange a repayment agreement spread over 4-6 months.

PHC will notify you when the LTC rate adjustment reports will be available.

For further information regarding the new process or your rate change, please contact the PHC Claims Department at (707) 863-4130.
