

# Help PHC Stop Fraud!

PHC, as your health plan, is responsible for getting you the health care you need. Getting health care means you have to present certain information at your doctor's office when you have an appointment.

If you have ever been told that someone else has used your information to get health care in your name, or have ever received a bill for services you didn't receive, you may be a victim of fraud.

PHC, your doctor, and our health care partners are here to help you if this ever happens. Please see our fraud-fighting resources below to help you and PHC fight fraud.

## ----- If you have Medi-Cal -----
