PartnershipAdvantage Hospital Providers

Provider Notice: #26

Subject: Present On Admission (POA) Indicator Reporting – 5010 Implementation

Effective with the implementation of 5010 electronic file format, Inpatient Prospective Payment System (IPPS) hospitals shall no longer report the POA indicator of 1. ICD-9-CM diagnosis codes that are exempt from reporting POA, shall be left blank instead of populating a 1.

In addition, the K3 segment which was required for reporting POA in the 4010A1 version of the 837I shall no longer be used to report POA. The POA indicators will instead follow the diagnosis code in the appropriate 2300 HI segment.
