DIAGNOSIS CODING TIP OF THE WEEK:

When coding BPH-Benign Prostatic Hypertrophy (600.0*) the 5th digit states whether the patient has LUTS-lower urinary tract symptoms or not. If you use (600.00) then there are no LUTS but if you use (600.01) there is LUTS and an additional code will be needed to specify the symptom for example, urinary frequency (788.41) or urinary retention (788.20).
