

Mobile Breast Cancer Screening

MOBILE DIGITAL MAMMOGRAMS THROUGHOUT CALIFORNIA

We provide mobile digital screening mammography to employer groups, health fairs, medical facilities and organizations. With options for portable units or our full-service, self contained coach, Alinea can accommodate every type of health event.

How It Works

CHOOSE YOUR OPTION

Indoor or Outdoor?

Book an event with us and let us know your preference of indoor or outdoor set-up.

WHO IS COVERED?

Asymptomatic women ages 40+

Mammography is typically covered for asymptomatic women over 40 by most insurance plans including Medi-Cal and Every Women Counts. Some PPOs may cover a baseline at 35. Ask us for our accepted insurance list.

APPOINTMENTS

It only takes 15 minutes per screening

We highly suggest the patients pre-register with consecutive appointment times for seamless service, however walk-ins are also welcome. Our accounts team can provide details on how to get patients to sign up.

SET-UP

45-60 min prior to the screening time

On the day of the event, Alinea will set up our equipment and other materials based on the needs of the event.

HOW MANY WOMEN IN A DAY?

We can screen 6-8 patients every hour

We require a minimum of 25 women to commit to an event and can see upwards of 45.

ABOUT ALINEA

20,000+
women screened annually

98%
survival rate in early detection

482
cities across California
