8. Monitor and Share Progress Throughout

1. Understand Your Measures

.... And your current state.

- Know Your Measures:
 - What are your all your measures?
 - What are the measure definitions?
 - How is the data collected and submitted?
- Know Your Performance
 - Analyze recent performance results (highlights, lessons learned)
 - Financial wins and misses

2. Plan for Organizational Engagement

- Who should be part of the discussion to prioritize your measures?
 - Decision makers
 - Influencers
 - Leaders
 - Staff involved in measures (all levels of staff)
- Who will facilitate the discussion (best practice is to have a neutral facilitator who does not ‘vote’)
- Who might just want to be ‘informed’ of the outcome?

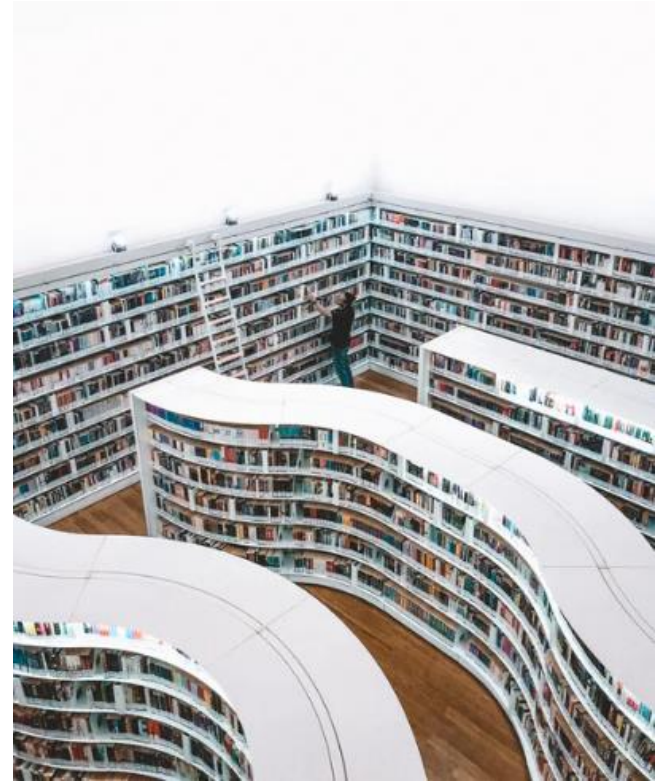

2. Plan for Organizational Engagement

- Understand how to bring the right team members together to offer a variety of perspectives and expertise to support improvement projects
- Learn how to lead productive, efficient, and fun meetings that team members want to attend

3. Prioritize Measures – Collaboratively

This is our focus for today!

- Simple Approach
- Moderate Approach
- Comprehensive Approach

4. Identify the Approach for Tackling

- How will we tackle prioritized measures?
 - Patient outreach
 - Staff education
 - Patient education
 - Patient incentives
 - Staff incentives
 - Community engagement and campaign

5. Develop the Execution Plan

- Now that you know what and how you will be tackling....
 - Who will be doing what, where and when?
 - What is the communication plan with those directly involved as well as the organization
 - How will results be tracked, measured and communicated

6. Formalize and Deploy

- Conduct the roll-out of the defined plan
- Send announcements

7. Do the Work

- Per the execution plan, including:
 - Communication / check-ins
 - Data collection
 - Reporting

8. Monitor and Share Progress Throughout
