## Notes, Decisions, Issues

- 1) Quick Welcome and Introductions
- 2) Data Sharing – John Helvey w/ SacValley MedShare
  - a. BH EMR Integrations
    - i. NETSMART - Live In – Butte, Mendocino, Solano, Shasta, Yolo
    - ii. Completed Testing
    - iii. Go Lives
      1. Completed - Sutter, Yuba, Trinity, Napa, Lassen, Plumas
      2. Scheduled – Modoc, Del Norte (Both Jan. 2025)
    - iv. Lake County – in testing / Paused by CalMHSA (over a year)
      1. John spoke to Brandon Franklin on ideas/strategies for Lake County. Will schedule meetings with PHC within coming week.
    - v. Will be streamlining as SVMS goes live in new platform. Soft Go Live is March 6<sup>th</sup>.
      1. Clarification – Anyone receiving care from PHC within counties that are live will receive alerts. In ADT – Give info received. Date of admission. Discharge date. Discharge diagnosis. Provider info. Facility info. Real time.
      2. If patient is seen in any QHAO, info will be sent to SVMS. Any PHC member, if seen throughout state, counties/PHC are alerted.
      3. Remaining two counties (Placer & Sierra) have been sent contracts. Should be live in next 60 days. Will re-engage with Placer County & Sierra County
  - b. SacValley MedShare Updates / Initiatives
    - i. Still seeking county seat/member to volunteer with being on the board.
    - ii. Working w/ Netsmart on EMR errors.

- iii. Volume – 80k CCD (Continuity of Care Document) – Ongoing document to see providers’ notes, history, progress notes, etc. SVMS compiles all data on single record for combined view.
- 3) Utilization – Alison French w/ Carelon
  - a. Current BH Market Trends
  - b. Referral Pathways
    - i. Accessing BH Services
    - ii. BH Eligibility Criteria
    - iii. Carelon & County Coordination
    - iv. 2024 Closed Loop Referral Tracker Coordination Activity – Monthly County Participation Listed – Participation is tracked in ShareFile
    - v. Carelon Care Management Program
  - c. Screening & Referrals
    - i. Quarterly County Screenings & Referrals (2023 & 2024 – Q1-Q4 data shown)
    - ii. Q4 2024 Screenings & Referrals Totals by County shown
      - 1. Referrals being sent by county preference. Typically via e-mail.
    - iii. Clinical Program Updates
  - d. Utilization
    - i. Penetration Rates (2015-2023)
    - ii. Unique Utilizers (12mo rolling data)
    - iii. Utilization by Age & County (Legacy & Expansion Counties)
    - iv. FTF (Face to Face) vs. Telehealth
      - 1. Breakdown Data Shown – Higher FTF in younger aged individuals
- 4) Closed Loop Referral Tracking – Eric Rushing w/ Partnership
  - a. Changes to tracker. DHCS imposed CAP on Partnership. Wants referral to indicate more data.
    - i. Added Appointment Date and Confirmation on Attendance column. Barriers need to be recorded.
    - ii. Partnership will be confirming whether appointments were attended. Want to build contact list with counties.
    - iii. If no referrals, please indicate when uploading tracker.
  - b. Recent Audit – County Participation Data Shown
    - i. Tracker is used in both directions – Carelon sends to county on 20<sup>th</sup> of each month, for prior month. Counties update and send back to Carelon.
- 5) Opportunities & Challenges – Mark Bontrager w/ Partnership
  - a. BH CONNECT & BHT
  - b. Managed Care plans will be able to provide 6mo Transitional Care Rent. BH Impacted Members. Mandatory to be an option by 1/1/26.
    - i. DHCS wants Partnership to survey counties for operator interest. If counties interested, reach out to Mark Bontrager with Partnership
      - 1. Nevada County would like deeper dive on benefit and how it will work.
    - ii. DHCS hosting tech assistance next week.
    - iii. Counties and Partnership need to pair
- 6) MOU Updates – Mark Bontrager w/ Partnership
  - a. Collaboration, Dispute Resolution, Coordination, Member Engagement, Quality Improvement, Policies
  - b. 16/24 of the counties have executed the MHP MOU. No issues presented
- 7) Final Questions / Wrap Up

## Mission Statement

“Improve the health and well-being of the communities we serve through the exchange of vital information with trusted partners”

A California Qualified Health Information Organization

## SacValley MedShare Has Been Named a Qualified Health Information Organization (QHIO) by the State of California (CalHHS)

*California Announces Designation of Nine Qualified Health Information Organizations to Support Secure Statewide Data Exchange Ahead of January 2024 Deadline*

### **WHAT YOU NEED TO KNOW:**

California's newly designated QHIOs will play a critical role in promoting the secure exchange of health information under the Data Exchange Framework (DxF), empowering health and social services providers across California to provide the best possible care.

**ROLE OF QUALIFIED HEALTH INFORMATION ORGANIZATIONS (QHIOs):** QHIOs fulfill the promise of a connected California by providing data exchange capabilities many health and social service entities currently do not possess, especially those serving historically marginalized populations and underserved communities. Connecting these entities and enabling their participation will broaden the reach of the DxF across the state, breaking down information silos that have long stood as barriers to effective, informed care. This milestone in interoperability will help ensure every Californian, regardless of where they seek care, can be assured their health and social services providers have access to a more complete picture of their health and are able to work together to provide the best possible care.

## VALUE STATEMENT

Communication is vital to efficient, effective, safe patient management, both in terms of health and wellness maintenance and treatment. Most system-related lapses in healthcare quality relate to poor communication between patients, providers, and others. If the focus is on the patient alone, there is a clear benefit from coming together and sharing information.

Qualified Health Information Organization (QHIO) can directly or indirectly benefit the participants other than patients, however. The benefits can be broadly categorized as follows:

- Direct improvement in patient care efficiency, quality, and safety
- Healthcare cost containment
- Increasing the efficiency of healthcare provision
- Meeting local, regional or national standards
- Maintaining market share in an evolving system

# Behavioral Health EMR Integrations

- SacValley MedShare has successfully integrated with the following:

## Welcome & Introductions

# Managed by Carelon Behavioral Health

Individual, family, group mental health treatment (psychotherapy) and medication management

Psychological testing to evaluate a mental health condition

PCP decision support by a Carelon psychiatrist

No prior authorization required for routine outpatient services

# Current Behavioral Health Market Trends

Claims-based BH provider revenues grew 9% annually since 2018, twice the rate of overall healthcare provider revenues.

Behavioral Health utilization is increasing and driving a greater proportion of overall healthcare spend, now exceeding \$200B in BH provider revenues<sup>1</sup>.

2nd

Highest disease burden behind CV; ahead of cancer, diabetes, and MSK<sup>2</sup>

30%

Rise in youth ED visits for mental health between 2011 to 2020

67%

Total healthcare spend attributed to 25% of Medicaid members with BH diagnosis

## Utilization

- **33%+** of all individuals ages 12-75 report mild to moderate depression and anxiety
- **66%** of Gen Z (13-24 years old) reporting mild to severe depression (65% report anxiety)
- Members that only use telehealth for BH have **2x** as many visits as in-person only

## Access

- **29%** of individuals who experience a mental illness reported an unmet need for treatment
- Total BH provider growth will continue (**~3.3% YoY**) into 2035; psychiatry will contract by 1.2%
- By 2036, the most in-demand providers are expected to be counselors (school, addiction) and psychologists

## Reimbursement

- **Medicaid (13%) and self-pay (16%)** are the fastest growing coverage segments
- Claims-based BH spend expected to continue growing at **6-8% CAGR**; primarily driven by OP utilization
- **ABA has highest CAGR (20%)** of any treatment modality and Autism Spectrum Disorders is the fastest growing market by condition (**18% CAGR**)<sup>3</sup>

DHCS imposed a CAP on PHC requiring PHC to ensure all referrals indicated appointment date/attended or barriers to attending appointment.

- Two sections were added to the referral tracker confirming appointment was attended or the barriers preventing them from attending
- You will see the updated tracker on 4/20/2025
- PHC will be confirming appointments were attended. We will be creating a contact list for county staff, please provide a point of contact for your county.
- Please indicate on the tracker if you had no referrals for the month. Example: No referrals this month in the notes section

Member Last Name	DOB	Referral Sent Date	Outcome	Referral Received Date	First Available Appointment Date / Referrals Provided	Appointment Date	Attended?	Disposition / Outcome
