

## Questions to Consider

- What kinds of things are important to you in your life?
- If you were not able to do the activities you enjoy, are there any medical treatments that would be too much?
- What fears do you have about getting sick or medical care?
- Do you have any spiritual, religious, philosophical, or cultural beliefs that guide you when you make medical decisions?
- If you had to choose between living longer or having a higher quality of life, which would you pick?
- How important is it for you to be at home when you die?
